DETAILED ACTION

Allowable Subject Matter

Claims 17 – 19, 21, 23 and 25 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 17, the cited prior art neither teach nor fairly suggest a method of adjusting an impedance of a gas concentration sensor, wherein the method comprises the steps of: detecting an impedance of the sensor from a voltage of the sensor and a current of the sensor; detecting a gas concentration with the sensor; changing the detected impedance in accordance with a predetermined operating parameter of the sensor in the step of detecting the impedance; and limiting a change of the detected impedance to be within a predetermined change rate.

Regarding claim 21, the cited prior art neither teach nor fairly suggest a method of adjusting an impedance of a gas concentration sensor, wherein the method comprises the steps of: detecting an impedance of the sensor from a voltage of the sensor and a current of the sensor; detecting a gas concentration with the sensor; limiting the detected impedance to a limited range of change when the detected impedance changes more than a predetermined rate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
